## Generator Model - P 17 DE S-DEUTZ

|   |                                 |
|---|---------------------------------|
| Phase                                     | 3 phase                         |
| Engine make                               | Deutz                           |
| Model                                     | D2009L03                        |
| No of cylinders                           | 3 in-line                       |
| Cubic capacity (litres)                   | 1.72                            |
| Engine speed (rpm)                        | 1500                            |
| Fuel tank capacity (litres)               | 100                             |
| Fuel consumption at full rating           | 4.15 litres per hour, 100% load |
| Heat rejection to exhaust system max (kW) | 13.8                            |
| Heat rejection to cooling system max (kW) | 10.7                            |
| Total radiated heat max (kW)              | Not applicable                  |
| Exhaust gas temperature (C°)              | 482                             |
| Combustion air flow max (cu m/min)        | 1.06                            |
| Dimensions l x w x h (mm)                 | 1600 x 720 x 1200               |
| Dry weight with lube oil (kg)             | 550                             |
| Bore and stroke (mm x mm)                 |                                 |
| Compression ratio                         |                                 |
| Governor                                  | Electronic governor             |
| Engine power (kW)                         | 13.2                            |
| Engine power (kVA)                        | 16.5                            |
| Oil capacity (litres)                     | -                               |
| Coolant capacity (litres)                 | -                               |
| Radiator cooling air (m <sup>3</sup> min) | -                               |
| BMEP                                      | -                               |
